July 2023
-

- **Project:** 10Min Zepto

➤ **Languages Used :** Python With Django, Java script, HTML ,CSS, Boot Strap,

➤ **Description:** Online shopping is the process whereby consumers directly buy goods or services from a seller in real-time, without an intermediary service, over the Internet. It is a form of electronic commerce. This project is an attempt to provide the advantages of online shopping to customers of a real shop. It helps buying the products in the shop anywhere through internet by using an android device.
- July 2023
